

Miscellaneous Equipment & Remote Controls

This document describes the various appliances and remote control units supplied in our properties. Not all controllers are applicable to each property.

Fireplace: This property is equipped with a natural gas fireplace in the Living Room. The flame is turned on or off using the electrical switch on the wall to the right of the mantel.

If the flame does not start within a few moments of turning on the fireplace switch, please call realTopia Vacation Rentals. The pilot on the fireplace may need to be lit.

Note: the pilot is located behind the grille under the fireplace..

Alarm Clocks:

We do not offer a wake-up service. However, we have provided one alarm clock in each bedroom for your use.

The den has a clock radio that can be used as an alarm clock.

NOTE: Clock models may differ than shown.
